## PROFILE

---

Motivated junior Front-End Developer with a strong foundation in building responsive and interactive web applications. Actively honing skills in modern technologies like React, Tailwind CSS, and 3D Web (React Three Fiber) through intensive training and real-world projects. Known for discipline, consistent self-learning, and a problem-solving mindset.

## SKILLS

---

**Technical Skills:** React.js, JavaScript (ES6+), Tailwind CSS, React Three Fiber, HTML5, CSS3, Git & GitHub, RESTful APIs, Responsive Design

**Soft Skills:** Quick Learner, Problem Solving, Attention to Detail, Time Management, Self-Motivation

**Languages:** Arabic (Native), English (Very Good)

## PROJECTS

---

### Event Linker | *React.js, Tailwind CSS, API Integration*

- Developed a comprehensive web application allowing users to create, manage, and discover events seamlessly.
- Integrated RESTful APIs to handle dynamic data fetch and user interactions efficiently.
- Implemented a responsive design ensuring compatibility across various devices.
- Live Demo: [event-linker-r-s2l3.vercel.app](https://event-linker-r-s2l3.vercel.app)

### Restaurantly | *React.js, Tailwind CSS, UI/UX*

- Built a modern, responsive restaurant website featuring an elegant UI and smooth navigation experiences.
- Utilized React components to create a modular and maintainable codebase.
- Optimized for performance and accessibility to enhance user engagement.
- Live Demo: [restaurant-phi-one-22.vercel.app](https://restaurant-phi-one-22.vercel.app)

### E-Learning System | *React.js, React Three Fiber, 3D Web*

- Developing an educational platform integrating 3D elements for immersive and interactive learning.
- Utilizing React Three Fiber (R3F) to render 3D graphics directly within the web interface.
- Status: Currently in development, focusing on 3D interaction and user experience.

## EDUCATION

---

### Egyptian E-Learning University

*Bachelor of Science in Computers and Information*

Expected 2026

Cairo, Egypt

- Second-year student maintaining a focus on core software engineering principles and web technologies.

## TRAINING

---

### Digital Egypt Builders Initiative (Road Masr)

*Front-End Web Development Trainee*

July 2025 – December

Cairo, Egypt

- Intensive program sponsored by the Ministry of Communications focusing on modern web standards.
- Hands-on experience with HTML, CSS, JavaScript, Bootstrap, and React.

### Eraasoft Summer Training

*Front-End Track*

July 2025 – Present

Remote

- Project-based training focusing on practical implementation of React.js and Tailwind CSS.
- Collaborated on workflows involving Git/GitHub and modern development tools.
